

DAM REPAIR & DAM SAFETY PROJECT BENEFIT SUMMARY
NORTH DAKOTA STATE WATER COMMISSION
PLANNING AND EDUCATION DIVISION
SFN 60550 (1/2016)

The following information will be used as part of the agency's project planning, budget development, and project prioritization processes. Project sponsors requesting SWC cost-share that have a project with a total cost of \$500,000 or more are required to provide supplemental information related to project benefits per NDCC 61-02-01.3. If the proposed project has undergone a detailed benefit-cost analysis, that information may be referenced or provided in lieu of the following.

Project Name:
Project Sponsor(s):
Describe existing and anticipated future conditions without the proposed project, including any dam safety concerns.
If applicable, provide a brief description of costs and impacts related to recent flood events that occurred to the structure. Include information about the magnitude of those events.
Describe how the project will reduce future costs and mitigate future impacts.
Describe the anticipated level of protection the proposed project will provide for downstream areas.

Briefly outline key infrastructure that will be protected by the proposed project, including major utilities or transportation elements, businesses, and residences.

If the dam provides water supply benefits, please summarize water users who will benefit from the project – including the number and type of users.

If the dam provides recreation benefits, please describe users who will benefit from the project.
If possible, estimate the number and type of users per year.

Estimate the total number of people expected to benefit from the proposed project and how they will benefit.

Provide any additional project-related benefits that you would like considered.
